Technical Skills

Languages: JavaScript, C++

Frameworks & Libraries: ReactJS, TailwindCSS, ExpressJS, MongoDB

Tools & Technologies: Git, GitHub, REST APIs

Operating Systems: Linux, macOS, Windows

Projects

Espresso Emporium (Full-stack coffee store web application)

github.com/hamadismail/espresso-emporium [↗](#)

- **Tech Stack:** ReactJS, Tailwind CSS, ExpressJS, MongoDB, Firebase.
- Full-stack coffee store web application.
- Users can add, update, delete, and view coffee details.
- Features secure user authentication and a clean, responsive UI

Doctor Appointment

github.com/hamadismail/doctor-appointment [↗](#)

- **Tech Stack:** ReactJS, Tailwind CSS.
- Build A React-based web application for scheduling and managing doctor appointments. The application includes multiple pages, data persistence, interactive UI elements, routing, and visual representation using charts.

Flagship Face Off

github.com/hamadismail/flagship-face-off [↗](#)

- **Tech Stack:** ReactJS, Tailwind CSS.
- Developed a React-based e-commerce web application for purchasing and managing mobile phones. The application features multiple pages with client-side routing, data persistence, interactive UI components, and a functional shopping cart implemented using the Context API.

Certifications

Complete Web Development Course, Programming Hero

- Covered HTML, CSS, Tailwind CSS, JavaScript, React, Firebase, and full-stack project development using MongoDB, Express.js, and Node.js.

Education

Green University of Bangladesh, BSc in Computer Science and Engineering

Feb 2020 – Feb 2024

- CGPA: 3.55/4.0
- **Coursework (Inc.):** Web Programming, Database System, OOP, Data Structure & Algorithms

Publications

A 3D CNN Model With Multi-Feature Fusion For Enhancing Human Emotion Recognition From Speech

Jan 2024
